Description

The Pokémon in the image is Charmander, a Fire-type Pokémon known for the flame at the tip of its tail. It's one of the original starter Pokémon from the Kanto region, alongside Bulbasaur and Squirtle. Charmander evolves into Charmeleon at level 16 and then into Charizard at level 36. The flame on its tail reflects its health; a strong flame indicates good health, while a weak flame suggests it's not doing well.
